

VFZ-291HM Z-Axis Stage

Our UHV type X-Y stage (VFZ-291HM) is designed with bellows seal and is oil-free structure. With the large handle, it guarantees superiority of operation performance.

No resin component is included therefore it is also accommodated for baking. As this is simplified stage we can provide at a low price.

SPECIFICATIONS

- | | |
|--------------------------------|--|
| 1) Baking Temperature | 200 °C (Except moving parts) |
| 2) Leak Rate | 1×10^{-10} Pa · m ³ /s or less |
| 3) Minimum Readable Resolution | Scale (by a millimetre) |
| 4) Life Cycle | 1×10^4 or more |
| 5) Z-Axis Travel | 90 mm |

* The travel distance is customizable.
